TITLE: “HISTO-LOGIC”

THEME: Geography knowledge, Contemporary History (Cold War) and mathematical logic.

COORDINATORS: Miguel Ángel Sendín miguel.sendin@eiris.edu.es María Ramos

PARTICIPANTS: A team from each school consisting of 4 students.

SKILLS: Knowledge and information skills.

OBJECTIVES:

Participants must develop their mathematical logic skills and use their knowledge of Geography and Contemporary History (Cold War; 1947 - 1991) to decipher the clues. Historical knowledge is not compulsory but it will help to achieve correct answers.

FORMAT:

The game will take place in several classrooms, where the teams will be given a board and tokens, as well as the instructions of the game and clues.

EVALUATION:

The team that finishes first in solving all the clues correctly will win. In the event that no team finishes the game in the time given of one hour, the team that has solved the most clues when the time ends will win.
